

RE: Summer Camp Unit Update 2021, CRM
April 29, 2021

TO: All 2021 Northeast Georgia Council Summer Camp Participants and Committee Chairs

We are just around the corner before finally kicking off this season of summer camp in the valley at CRM!

In an effort to streamline the arrival and check-in process and to mitigate any potential risk, we are continuing our staggered Troop Check-In procedures for all units.

- We are attaching a **pre-screening / COVID-19 Test affirmation form**. This form will be needed at your medical pre-screening upon arrival for all scouts and adults. You should **forward this to your parents** and have them turn it in to you **prior** to your departure for camp. You should also conduct a pre-screening of scouts and adults **before** your departure for camp.
- **Medical forms** - Please remember that Parts A & B should be recently completed by the parents. Part C must be completed by a licensed Health practitioner. **Please ask the parents to include a current date in the TETANUS immunization section, and to include a signature on Part B2 for your scouts to be given any medication from our Medical Lodge, should the need arise.**
- **Financials** – To speed up the check-in process, **please make your final payment by the Tuesday prior** to your arrival at camp. Any final discrepancies or adjustments can be processed at check-in once payments have been received. Cathy will be sending invoices on the Monday two weeks prior to your scheduled arrival at camp.
- **Arrival time** - While our published arrival window is 1:00 pm – 5:00 pm, we would appreciate you **selecting an arrival time slot** to help us spread out the medical pre-screening and avoid long waiting periods. This staggered check-in will also help us to keep cohort groups separate during the Check-In process. Please complete the quick appointment form for your week here:
